

EXPECT 3,000 DELEGATES AT M. E. MEETING

Keynote at Convention to be Evangelization of World and Adoption of Practical Policy of Advance.

INDIANAPOLIS, Oct. 27.—Methodism must evangelize her share of the world, will be the keynote of the national convention of Methodist Men, which will convene here next Tuesday and continue through Friday. It is expected that 3,000 delegates, including bishops, secretaries, district superintendents, clergymen and laymen will attend.

The purpose of the convention, it is announced, is "to increase missionary intelligence and to deepen the spiritual life, to present the definite responsibility of Methodism both at home and abroad in relation to other denominations and Christian agencies, to adopt a practical denominational program and policy of advance, and to place more definitely before the church the new financial plan adopted by the general conference for the church."

A number of national boards of the church will meet in connection with the convention. While the convention is to be limited to delegates bearing credentials, meetings have been arranged for the different evenings so that others than delegates may learn what the convention is doing.

Among the bishops, who are on the program, are: Francis J. McConnell, of Denver; James W. Bushford, Peeking, China; Homer C. Stuntz, of South America; Edwin M. Hughes, San Francisco; Earl Cranston, Washington, D. C.; Theodore S. Henderson, Chattanooga, Tenn.; W. A. Quale, St. Paul; Bishop W. F. McDowell, Chicago, and William F. Anderson, Cincinnati.

UNITY OF CHURCH.
KANSAS CITY, Mo., Oct. 27.—The dream of the Congregational church is the unity of the church of Jesus Christ. The Rev. Oliver Huckel, of Baltimore, thus defined the church's position in an address Sunday afternoon in connection with the national council of the church. Prominent leaders occupied pulpits Sunday and spoke on various subjects.

"The wisest method of church unity," said Dr. Huckel, "is consolidation—an organic unity on terms of equality with the preservation of the valuable points in each community allowing all desired diversity in worship and work. Such a consolidation would lead to a great national church—the United Church of the United States, a part of the United Church throughout the world."

Dr. Chas. E. Jefferson of New York city dwelt on the need of a re-statement of the doctrine of Christ to meet twentieth century problems.

"America has four dragons to meet and conquer," he said. "The the vitals of our nation."

"The second is lust, it burns like first is greed, it eats like a cancer in a consuming fire in our blood and our homes."

"The third is worldliness, which is always contracting our horizon and bringing down our standards."

"The fourth is atheism of force, the doctrine that declares the national greatness is founded on naval tonnage. That to put an iron-clad in the Oriental's eye is a glorious achievement and that a nation's honor can be safeguarded by 15-inch guns, money and liberty, science and education all stand impotent. Nothing can save us but faith in the living God."

FORTY-SIX OF VOLTURNO BROUGHT INTO PORT

Dramatic Scenes When Survivors Come Face to Face With Others Rescued From Ship.

NEW YORK, Oct. 27.—There was an echo Sunday of the recent disaster to the steamer Voltorno, which was burned at sea, when 46 survivors of the ill-fated vessel were brought into port by the steamer Carmania. They were rescued by the steamer Devonian and taken to Liverpool, where they were transferred to the Carmania.

There were numerous dramatic scenes at the Hebrew Sheltering and Immigrant Aid Society's building when the new arrivals came face to face with others of the Voltorno's saved previously brought here by other steamers. A bride, who had become separated from her husband during the rescue at sea and believed him dead, screamed in fright "It is his ghost," when she beheld him and then fainted.

Mrs. Brouche Grossman of Philadelphia, with three children, was among Carmania's passengers. She had been brooding over the supposed loss of her husband and a child and was overjoyed when informed that they arrived here last week and had gone to Philadelphia.

DYNAMITE APPEALS TO BE HEARD WEDNESDAY

Thirty Convicted Labor Union Officials to Have Cases Argued Before U. S. Circuit Court.

CHICAGO, Oct. 27.—The appeals of 30 of the 33 labor union officials, convicted in Indianapolis last December of conspiracy and complicity in the McNamara dynamiting plots, will be argued before the United States circuit court of appeals here for three days beginning next Wednesday.

At the head of the list of convicted dynamiters who were released on bond in the federal prison at Leavenworth, Kans., and who are seeking reversal of their sentences are: Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers; Olaf Tveitmo, San Francisco; John T. Butler, Buffalo; Michael J. Young, Boston; Philip A. Cooley, New Orleans, and Frank C. Webb, New York.

These and the other appellants were found equally guilty, first of conspiracy and second of illegally transporting explosives. Counsel for the men headed by Chester H. Krum, St. Louis, and E. N. Zollie, Chicago, announced Sunday the basis for the appeal. It will be that there is no such federal offense as a conspiracy on which the convictions were based, and that the government afforded no proof of any such conspiracy.

The government already has filed an argument against a new trial, what is said to be the longest brief of its kind ever prepared. United States Attorney Charles W. Miller of Indiana, will have charge of the government's case.

Recent arrests in New York and Indianapolis of two more men in connection with the dynamiting plots, and the confession of one of the men obtained by the government since Ryan and the others appealed, Mr. Miller said, has given the government occasion to file a further brief in support of its contention.

The World's Greatest Beauties

SINCE THE DAWN OF HISTORY
HAVE HAD BEAUTIFUL HAIR

In all affairs of weight, whether of war, politics or business, beautiful women have always exerted a mighty influence. This subservience of the world to feminine loveliness is seldom admitted by the sterner sex, but it is there just the same and no one realizes this better than man, mere man. He is a daily worshipper at the shrine of Venus and a passively willing prisoner to her charms. This condition has existed since the world began, until, to the lord of creation, paying regular and magnificent tribute to beauty has become a habit.

In the early days, to enhance the pristine beauty of their hair, the women resorted to the use of fragrant ointments. Much care was given to the hair, hours being devoted daily to the manipulation of mi-lady's tresses by her slaves and hand maidens.

Today the girl or woman, desiring to appear always at her best and to have healthy luxuriant hair, relies on
